TECHNICAL SPECIFICATIONS

- ABS cover
 - Monobloc digital motor – without brush - 800W (with variable speed drive)
 - Power supply voltage 220-240V
 - Electric protection : IPx4
 - Dimensions : 300x225x670 mm (LxPxH) and net weight : 9,5 kg
-
- Drying time : 7 to 10 seconds
 - Output air speed : 306 to 360 km/h
 - Sound level : 68 to 74 dB
 - Water collecting tank
 - Heat collecting + self-adjusting heating : < 37°C
 - Antibacterial surfaces treatment (SGS certification)
 - Interchangeable triple actions filter (air, active carbon, HEPA) optional

ADVANTAGES

- Ultra fast drying
- Limited sound rate
- « MORE ERGONOMICS » : Circular and horizontal drying zone. Easily accessible specifically by children and people with reduced mobility (PMR)
- Comfort of use : hot air flow without bacterial proliferation
- Sanitary use : water collecting tank, anti bacterial treatment, triple actions filter
- Easy maintenance : easy accessibility of tank, water collecting circuit
- Low power consumption
